

Environmental Recycling Inc opened on November 5, 2007 with the intent of diverting new construction materials from landfills and incinerators, sorting through these materials, processing them in order to redirect recyclable recovered resources back into useful products.

We accept virtually all materials that are generated on a new construction jobsite. All of the materials can be co-mingled into one roll off making it more user friendly for everyone on the jobsite.

If your project requires L.E.E.D. Certification we can help. Using our company to recycle your next project could assist you and/or your client in receiving:

- MR 2.1 Construction Waste Management, Divert 50% from disposal
- MR 2.2 Construction Waste Management, Divert 75% from disposal

Our operation works as follows; trucks come in/out across our certified scale, the scale ticket prints out the gross, tare, and net weights, tons, date, times, our company information, customer's name, type of materials and then we require a driver's signature to verify and accept the information. If it is a L.E.E.D. project, we can e-mail the scale ticket.

Doing business with Environmental Recycling Inc, you will know that when your materials are received at our location they will be recycled and not sent to a transfer station, landfill, or an incinerator.

The materials that we do not accept are;

- Demolition materials
- Regular trash
- Food waste
- Furniture
- Appliances w/ freon
- Hazardous Materials

These are the following materials that we are accepting at our facility;

- *Wood (new construction) 2x's, plywood, OSB, pallets, crates, engineered lumber, ACQ*
- *Drywall (new Construction)*
- *Cardboard*
- *Paper – newspaper, magazines, office paper, files, copy paper, phonebooks*
- *Plastic – pop bottles, cups, milk jugs, vinyl siding, plastic bags, plastic wrap (unless full of dirt)*
- *Copper – wire & pipe*
- *Aluminum – House trim, cans, conduit*
- *Scrap metals*
- *Carpet pad*
- *Concrete, brick, and asphalt*
- *Vinyl Siding*

Together we can help the Environment for our children and grandchildren.

Environmental Recycling Inc's motto is "Here Today For Tomorrow" and that is what we are striving for.

We appreciate you taking time out to review our information and look forward to answering any questions that you may have.

Thank you,

Christopher B. Skadberg
