Sophisticated, not stuffy.
Elegant, yet relaxed.
This style is a study in
harmonious contradictions.

new traditional

The moulding profiles in this combination are sized to balance the overall height of a room. High ceiling profiles are perfect for higher, more dramatic ceilings and walls typically found on the main floor or main living areas of the home. Standard profiles should be used with smaller rooms with ceilings that are lower than 9 ft.

Indicates profiles designed for ceiling heights over 9 ft.

recommended interior doors

When planning your New Traditional room, consider an interior door that has a two-panel design. This classic, artistic design echoes the sophisticated elegance of New Traditional mouldings and will help create a timeless transition from one room to the next.
